

IS 200t

A detailed close-up photograph of a Lexus IS200t engine. The engine is dark, with a prominent glowing orange turbocharger in the center. The Lexus logo is visible on the top right of the engine cover. The background is dark, making the engine components stand out.

INTRODUCING THE IS200t

Turbocharged Performance

With its all-new 2.0L petrol turbo engine fitted with a D-4ST fuel injection technology that provides instantaneous torque and enhanced fuel economy, the Lexus IS200t delivers a powerful 241hp with a maximum torque of 350Nm, enabling it to sprint from 0 to 100km/h in just 7.0 seconds and reach a top speed of 230km/h with its 8-speed Sport Direct Shift – all the while maintaining an average fuel consumption of 7.5L/100km.

The innovative combination of a water-cooled cylinder head, integrated exhaust manifold and twin-scroll turbo lets the IS200t to deliver fast throttle response with minimal turbo lag and enhanced low speed torque.

LEXUS TURBO

A Perfect Symphony of Technologies

By combining the cylinder head with integral 4-into-2 exhaust manifold and twin-scroll turbo engine technologies, the Lexus Turbo is able to provide a high level of responsive performance by pairing cylinders according to their expansion and compression stroke, and high torque across a wide range of rev by preventing interference between exhaust gasses from each cylinder.

The twin-scroll turbocharger features a variable waste gate valve control that minimises pumping losses by reducing back pressure during low engine rev when the turbo is not required. Together with the start & stop system, this has enhanced the fuel economy by 2%.

The Lexus Turbo also employs a water-to-air intercooler mounted directly to the engine to significantly reduce the intake volume downstream, minimising turbo lag and improving acceleration from 0 to 100km/h by 0.3 seconds.

AN IMAGE TO BEHOLD

ALL EYES ON YOU.

Designed for the new era, the IS200t quickens pulse rates with its captivating and aggressive stance, punctuated by inset LED daytime running lights and a sculpted line that starts from the rocker panel and goes all the way around the rear wheel arch. So whether parked or on the road, the IS200t absolutely refuses to go unnoticed.

Inside this beauty is a 2.0-litre, 4-cylinder turbo engine that produces power and torque that enables the IS200t to achieve top speed immediately, giving you the driving thrill Lexus is known for.

BOLD AND SPORTY

DESIGNED FOR DRIVING EXHILARATION BEYOND THE ORDINARY.

Centre of attention on this stunning new sedan is the boldest 'spindle grille' yet seen on a Lexus. HID and LED headlights are available for the IS 200t with the L-shaped LED daytime running lights which complete the purposeful look. In profile, the car's athletic stance is complemented by a low bonnet, side 'kick-up' line and long coupé roofline, giving dynamic presence and exceptional roominess. Excellent aerodynamics results from details like the extra smooth roof joints and closable radiator vents. Winglets on the rear lights and front door pillars increase stability and also reduce wind noise.

FULL THROTTLE GRATIFICATION

ENJOY PRECISE HANDLING WITH WORLD-CLASS LEXUS SMOOTHNESS AND COMFORT.

The IS200t is the result of relentless attention to detail: for a more engaging drive, the driver's seat hip point has been lowered by 20 mm and the steering wheel pitch adjusted by 3°. Driving precision has been improved with a more rigid chassis, built using breakthrough adhesive and laser screw welding technology. New multi-link rear suspension gives greater grip and improved handling. Factor in innovative aerodynamics, and you have a car that is not only highly responsive, but one that's incredibly quiet too.

PEERLESS COMFORT

IMPECCABLY FINISHED AT OUR AWARD-WINNING TAHARA PLANT, THE IS200t BOASTS EXQUISITE REFINEMENT.

Relaxing in sumptuous leather seats, you'll enjoy exquisite Lexus details and a beautifully finished central analogue clock. Through such attention to detail, the Lexus 'Takumi' craftsmen have been able to create sharp, well-defined interior styling forms and maintain an inviting atmosphere.

For substantial increase in rear passenger legroom and a smooth ride, the car's wheelbase has been extended by 70mm from the previous generation. The rear seats also fold flat 60:40* - ideal for storage of bulkier objects.

UNPARALLELED TECHNOLOGY

DESIGNED AROUND YOU.

With high-definition 7-inch display, next-generation navigation, and breakthrough driver support systems, you can navigate, make calls, or enjoy the 15-speaker Mark Levinson® Premium Surround System*. Or, with the brush of a fingertip, use innovative electrostatic controls (touch sensitive) to adjust the air conditioning.

A new Drive Mode Select system features up to four switchable driving modes - ECO, NORMAL, SPORT S and SPORT S+ (the latter available on F SPORT model), to optimise your preferred performance and handling characteristics.

*F SPORT only.

F SPORT : A NEW LEVEL OF EXHILARATION

ELEVATE YOUR EXPERIENCE.

Unmistakably bold, the F SPORT variant features exclusive F SPORT grille, F SPORT emblems and 18-inch alloys. Inside, you're greeted by LFA-inspired instruments. A distinctive F SPORT steering wheel, fully-digital meter, exclusive 'Dark Rose' leather sports seats, aluminium pedals and metallic inlays complete the interior.

SPORT S+ mode on the F SPORT variant retunes Adaptive Variable Suspension and power steering for a more dynamic drive. With steering and suspension engineered for extra responsiveness, the IS F SPORT variant is set to deliver new levels of control and driving enjoyment.

HIGHLIGHTS

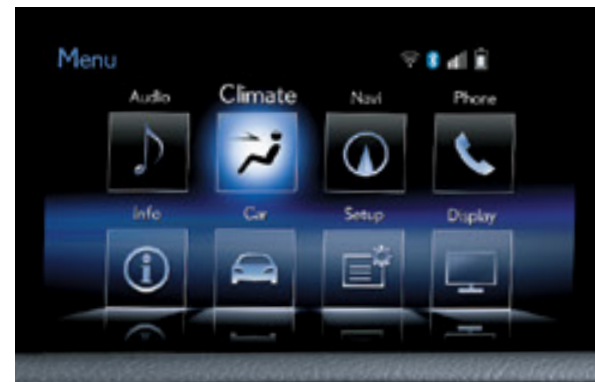

ALLOY WHEELS

The solidity of these 17" and 18"* alloy designs with spokes that widen towards the rim communicates a strong presence that emphasizes the IS200t's muscular stance which also contribute to aerodynamic performance.

SMART START SYSTEM

Vehicle can be started by simply pressing the "START" button without having to take out your key.

7-INCH FULL-COLOUR DISPLAY

A high-resolution, full-colour 7-inch display is available to enhance visibility.

LEXUS DISPLAY AUDIO (LDA)

With 8-directional joystick control, the LDA system allows customers to easily navigate around the functions and information on the 7-inch display screen.

POWER TILT-AND-TELESCOPIC STEERING WHEEL

Allows the wheel to tilt "steplessly" upward and move forward, enabling different drivers to easily select their most comfortable steering-wheel position.

ELECTROSTATIC CONTROL

The centre console incorporates Lexus electrostatic switches to control the air conditioning temperature with the touch of a finger.

OPTITRON METERS

The easy-to-read Optitron meters provide critical driving information at a glance. Switching to Sport Mode illuminates the instrumentation in a vibrant red.

DRIVE MODE SELECT

Using Drive Mode Select, switch to ECO for maximum efficiency, or SPORT and SPORT S+ for dynamic responsiveness.

60:40 SPLIT REAR SEATS

The rear seats can be folded flat 60:40 - ideal for storage of bulkier objects.

10 SRS AIRBAGS

Equipped with two-stage Dual SRS front airbags, both driver and front passenger SRS knee airbags, front side airbags and full-length SRS side curtain airbags.

POWER FRONT SEATS

The front seats have 8-way power adjustments to let individuals with a wide range of physiques tailor the optimum position of comfort and support required for focused sports driving.

ANALOG CLOCK

A stylish focal point of the instrument panel is this elegant LED analog clock that encapsulates Lexus simplicity, functionality and precision. At night, the self-illuminating dial plate ensures excellent legibility.

*F SPORT only.
