Sharp and refined, in every way.

Note: Vehicles pictured and specifications detailed in this catalog may vary from models and equipment available in your area.
From the beauty of contrast comes the thrill of excitement, just as the powerful land and graceful ocean converge to form this unparalleled landscape.
Just because you’re off work, doesn’t mean you turn off your inner engine. You’re driven to reach the heights beyond the summit.
Technology alone is not enough to get you there. But neither is art. The answer must surely lie at their intersection.
Surprises both tactile and visual await you. Your body will perceive wonder, before your head even has time to think.
Its power isn’t for show.
Now agile, now smooth,
it empowers you to navigate your own road, your own way.
Wind, waves, sun.
How close can a man-made machine come to recreating the thrill of nature?
The thrill of excitement will be never-ending, as long as you keep your foot on the accelerator.

Inspired temptation. The alluring coupe lines instantly capture the heart, then quickly stir the soul with an exhilarating driving experience that further amplifies desire.
The stunning beauty, distinctive presence, and dynamic performance of the LC are the unconstrained realization of the ‘Seduction & Technology’ design concept. Close collaboration between the design and engineering teams confirmed the gorgeous form that seduces the eye, is matched by an exhilarating driving experience, in a fusion that only Lexus can achieve. The focused ergonomics of a cockpit geared to driving are complemented by the integration of authentic materials, advanced technology and expert craftsmanship throughout the luxurious cabin.

The sharp response and linear characteristics that connect the driver and car, leverage the refined evolution of the platform architecture and packaging, including the suspension, powertrain and drivetrain, to deliver the pure excitement of next generation Lexus sports driving.
Fusing seduction with technology, the avant-garde design blends dynamic proportions with elegant lines, and imbues the cabin with the sensual allure of an authentic luxury coupe.
The intuitive layout of the cockpit that invites spirited sports driving is complemented by the pleasurable comfort of the welcoming space that cocoons the passenger.

**INTERIOR**

The low center of gravity and dynamic stance of the taut body project a powerful presence, highlighting the bold three-dimensional form that accentuates the LC’s coupe agility.

**EXTERIOR**
The pursuit of fundamentals critical to realizing “Even Sharper, More Refined” driving performance, drove the development of an entirely new platform. It is the catalyst for the smooth linear steering, the feeling of connection with the vehicle in motion, and comfortable driving rhythm.
FR (Front Engine, Rear Wheel Drive) Platform
The structural integrity that forms the core of the LC’s next generation driving dynamics began with a “back to basics” examination of the platform architecture and its vital contribution to performance. To provide smooth maneuverability and stability, the moment of inertia which acts as resistance to the vehicle’s rotational movement was reduced, and the center of gravity lowered to realize excellent steering stability. This was reinforced by positioning the wheels close to the corners, a wide stance with short overhangs, and balanced front-to-rear weight distribution, to realize responsive and natural vehicle behavior. In addition, both the horizontal and vertical distance between the center of gravity and the driver’s hip point were brought closer together, heightening the feeling of connection between driver and car. The result is a layout that realizes driving close to the ideal, enhancing the coupe’s responsiveness to driver inputs and giving a natural feel of the road. This dynamic platform also enables the beautiful body with its low-set engine and driving position, which is further refined by the sculpted aerodynamics.

Multi Material Body
The design of the chassis was driven by a sharp focus on structural integrity to enhance the basic performance potential. Optimizing the layout and the use of aluminum and hot stamp, high-tensile steel contribute to the lightweight, high rigidity body structure, reinforced by the use of body adhesives, laser welding and laser screw welding. To further lighten weight and lower the center of gravity, aluminum and CFRP (Carbon Fiber Reinforced Plastics) are used for a variety of components.

Disc Brakes
Large 20-inch disc brakes on the front and high-friction brake pads actuated by 6 opposed pistons on the front and 4 opposed pistons on the rear provide stable braking performance in diverse driving conditions. Monoblock aluminum calipers contribute to their light weight and excellent rigidity.*

Drive Mode Selector
Drive Mode Selector provides integrated control of multiple systems to let you tune performance to suit your driving style. You can select and change between five modes: Normal, Eco, Comfort, Sport S and Sport S+ Modes. In addition, Custom Mode enables drivers to set their preferred settings for the powertrain, chassis and air conditioning.

Front and Rear Suspension
The innovative front and rear multi-link suspension features a double joint multi-link design which also enables the low hood line of the LC’s alluring silhouette. Optimal tuning and the layout of each arm contribute to the linear steering feel, superb stability, and exceptional ride comfort of a premium sports coupe.

*The brake systems designed for high road. Therefore, certain speeds, braking force, and ambient conditions such as temperature and humidity maycause brake noise.
Engine Sound

The sound generator and generator hoses utilize pulses in the engine air intake to generate and harmonize 3 different high frequency tones during acceleration, producing a highly distinctive and sporty engine sound unique to the LC. An aural experience in its own right, the vibrant engine sound is enhanced by special sound-control valves in the exhaust that activate during start-up, producing a localized sound image that projects a feeling of space and depth.

5.0-liter V8 Engine

With a power output of 470hp and 540Nm of torque on command, the naturally aspirated 5.0-liter V8 engine delivers a feeling of continuous power for exhilarating driving. Refined intake and exhaust components enhance driving performance to realize an emotional driving experience.

Direct Shift-10AT

Feeding dynamic control for driving exhilaration, the close gear ratios of the advanced 10-speed automatic transmission realize equal intervals between gears and shifting, for quick rhythmic shift changes with a good tempo and upbeat engine sound as you accelerate through the gears. The wide gear ratio range enables powerful start-up acceleration, yet is exceedingly comfortable during high-speed cruising.
The quality and depth of the LC driving experience are forged in a sophisticated fusion of authentic materials, advanced technology, dedicated craftsmanship, and Lexus finesse in the quality details.
To realize the distinctive beauty and presence of the LC, the shape and surface treatment of each part of the body were carefully refined to produce the strikingly gorgeous whole. An innovative approach to detail blends form with function in the eye-catching front and rear lighting, door mirrors, and door handles. The cockpit and cabin show the same assured design and attention to detail.

To help the driver concentrate, driving controls are ergonomically positioned around the steering wheel, and information displays aligned on a single plane to reduce eye movement. Throughout the cabin, the beautiful craftsmanship and subtle integration of the L-motif pattern unify and deepen the luxury sports driving experience.

**Door Mirrors**
The mirrors combine excellent visibility and refined aerodynamics in an eye-catching design. Cutting the inner side of the mirror enhances forward visibility between the pillar and mirror, while a slight curvature of the mirror provides wide visibility to the rear. The black upper sides of the mirror contribute to the visually compact design.

**Ultra-compact LED Projector**
The sophisticated inverted trapezoid design of the headlamps projects a high-tech image. The distinctive graphics accentuate a feeling of depth, and contrast with the arrowhead-shaped LED DRL (Daytime Running Lamp) that emits a subtle Lexus signature. The very compact unit contributes to the low hood, short overhang and lightweight body.

**LED Rear Combination Lamps**
The increasingly strong sequential illumination of the signature L-shaped rear combination lamps is created by an innovative multi-reflection effect using a one-way mirror. The lamp structure enhances illumination depth while enabling thin lamps that minimize intrusion into the luggage space.

**Door Handles**
Fusing seductive beauty with aerodynamic function, a simple line on the door reveals the presence of the handle recessed flush with the surface. When carrying the Electronic Key, push the front of the handle and it unlocks the door and pops the handle out. Push the rear of the handle and it retracts automatically and locks the door. At night, integrated LED illumination guides you to the handle.*

* The mechanical key is built into the Electronic Key. Electronic Key caution: Radio waves may affect electric medical devices. Individuals with devices including cardiac pacemaker implants should keep them from coming close to the Smart Entry & Start System antennas.
Paddle Shift Switches
The size and positioning of the paddle shift switches were optimized so they can be operated without changing grip on the steering wheel. Their magnesium alloy finish contributes to their light weight and high rigidity, and also adds a luxury touch.

Remote Touch Interface
The newly-developed, advanced touchpad surface enables simple touchpad operation, letting users interact intuitively with the audio and navigation systems on the 10.3-inch EMV display, providing easy control of both systems.

Mark Levinson Audio System
The audiophile-quality Mark Levinson Reference Surround Sound System incorporates an 11-channel amplifier that drives 13 speakers, to replicate a precise sound stage that reproduces the position and depth of each instrument. It incorporates Clari-Fi technology that intelligently restores high fidelity to music from compressed digital sources such as MP3.

Steering Wheel
The Lexus focus on details is exemplified by the design of the steering wheel. Both the shape and cross-section of the steering wheel were analyzed in repeated road tests by Lexus Takumi craftsmen who measured the distribution of pressure on the palm while driving, to help fine-tune a grip profile that supports a natural grip and wrist movements while sports driving.

Meter / 10.3-inch EMV Display
Evolved from the Lexus LFA supercar, the single central 8-inch color TFT (Thin Film Transistor) meter changes color and the information displayed with the drive mode selected, to communicate vital vehicle information at a glance. In addition, information from the multi-information system can be displayed either within the meter, or beside the meter when it slides to the side. The wide viewing angle of the large 10.3-inch EMV (Electro Multi-Vision) display provides the driver with clear audio and navigation system information.
LED Ambient Illumination
LED ambient illumination integrated into the door trim contributes to the feeling of luxury in the cabin, subtly shading and lighting the drape of the trim. It provides an elegant atmosphere that is different from its daytime face.

Analog Clock
The analog clock embodies Lexus luxury, functionality, and simplicity. The thick metallic ring and subtle L-motif pattern on the dial plate harmonize with the sporty display zone design. Self-illuminating needles provide excellent legibility at night.

8-way Power Adjust Front Seats
Power adjustments enable tailoring of the front seat settings to optimize individual comfort and support. Their satin metallic switches impart a quality touch.

One-touch Walk-in Function
For easy access to the rear seats, the walk-in function automatically slides the front seat forward and lowers the headrest when the lever in the shoulder of the front seatback is operated, and returns them to their original positions when the seatback is raised.

Front Seats / Lexus Climate Concierge / Ventilated Seats
Beneath the beautiful handcrafted finish of the front seats is an innovative layered structure that separates the structures for the seat back and sides, enhancing the strength of the seat frame for lively sports driving. Additional refinements to the side cushioning to provide excellent lateral support, are complemented by concave shaping of the seat cushion to support the pelvis. The Lexus Climate Concierge automatically controls the cabin temperature and Ventilated Seats for the front seats. Suction-type seat ventilation eliminates the humid feeling associated with leather seats.

FEATURES INTELLIGENCE SEVEN
SAFETY

The LC’s exhilarating sports coupe performance is underpinned by active and passive safety measures that utilize advanced technologies to deepen your peace of mind.

SAFETY

Blind Spot Monitor System
When the quasi-millimeter-wave radars in the rear bumper detect vehicles in adjacent lanes that aren’t visible in the door mirrors, the system activates an LED warning indicator in the relevant door mirror the moment a vehicle enters this blind spot.

RCTA (Rear Cross Traffic Alert)
To assist safe reversing, RCTA uses quasi-millimeter-wave radars in the rear bumper to detect approaching vehicles in difficult-to-see areas behind the vehicle. When an approaching vehicle is detected, RCTA alerts the driver using a buzzer and an LED indicator in the relevant door mirror.

SRS (Supplemental Restraint System) Airbags
The LC features dual-stage SRS airbags (Front seats), SRS knee airbags (Front seats), SRS side airbags (Front seats) and SRS curtain shield airbags (Front and rear seats).*

PUH (Pop Up Hood)
The innovative PUH helps to provide pedestrian protection in the event of a frontal collision, and at the same time enables a sporty design with a low hood line. When sensors mounted in the front bumper determine that the vehicle has collided with a pedestrian, the hood instantly pops up on four fulcrum points to create a space to help absorb the impact force.

*The SRS airbags are supplemental devices to be used with the seatbelts. The driver and all passengers in the vehicle must wear their seatbelt properly at all times. Never install a rear-facing CRS (Child Restraint System) on the front passenger’s seat. For details on these and other important safety features, be sure to read the Owner’s Manual carefully.
Taking exhilaration to a higher plane, the LC sport attributes hones precise sporting performance to unleash the thrill of emotional sports driving.
Further honing sporting performance, the sport attributes fine-tune the LC’s athletic prowess with exclusive enhancements. Visual clues are provided by a lightweight CFRP roof to reduce weight, and an active rear wing to boost downforce. In the cockpit, careful shaping of the front seats provides excellent holding support against lateral G forces, including those experienced in race track driving.

The sport package truly reveals its athletic prowess in assertive driving, with the responsive handling and control (finessed by the integration of LDH and a Torsen LSD).

CFRP (Carbon Fiber Reinforced Plastics) Roof
At the Motomachi Plant in Japan, Takumi craftsmen apply carbon-forming technology developed for the Lexus LFA supercar. The use of CFRP creates a roof with strength and rigidity comparable to steel but with less weight, contributing to the low center of gravity at the heart of sports driving performance.

CFRP Scuff Plates
CFRP scuff plates further reduce weight. The subtle contrast of the gloss/matte finish exudes a refined sporting quality.

Active Rear Wing
The retractable rear wing integrated in the trunk lid automatically deploys in response to higher vehicle speeds to provide aerodynamic downforce. The driver can also manually operate the wing using a switch on the instrument panel.

Alcantara® Front Sport Seats
To provide excellent support against the lateral G forces experienced in sports driving, the seats use an innovative ‘integrated foaming’ structure, holding performance around the shoulder and lumbar support was enhanced, and they are finished with Alcantara on the center of the seatback and cushion.

LDH (Lexus Dynamic Handling System)
LDH lifts driving performance to a higher plane. Together with EPS (Electric Power Steering), VGRS and DRS (Dynamic Rear Steering) control all four wheels independently to enhance the vehicle’s limit while cornering, line trace performance and stability, to enjoy a higher level of sports driving.

VGRS (Variable Gear Ratio Steering)
VGRS optimally controls the steering angle in response to vehicle speed and steering input, helping to realize excellent maneuverability and stability from low through to high speeds.

Torsen LSD (Limited Slip Differential)
The torque-sensing LSD provides linear response to acceleration, contributing to excellent traction performance and handling, as well as stability in both straight-line driving and while cornering.
Our Takumi craftsmen strive for perfection in every aspect of their work, actively seeking enhancements by applying constant care and dedication to their craftsmanship, blending their craftsmen’s skills with the power of technology to better anticipate the future.
**SPECIFICATIONS**

**ENGINE & TRANSMISSION**
- **Model:** LE560
- **Type:** 3.6L V6, DOHC, 24V, VVT Engine
- **Variable Valve Timing:** Dual VVT with Otto / Atkinson Cycles
- **Displacement:** 3.6L
- **Bore & Stroke:** 90.1 mm x 89.6 mm
- **Compression Ratio:** 10.5:1
- **Max. Power:** 677 hp @ 6,850 rpm
- **Max. Torque:** 267 lb-ft @ 3,500 rpm
- **Transmission:** 10-speed Direct Shift A/T
- **Drive System:** Rear Wheel Drive

**PERFORMANCE**
- **Acceleration 0-60km/h:** 4.6 sec
- **Top Speed:** 270 km/h
- **Fuel Consumption (ECC):** 11.1 L/100 km
- **CO2 Emission:** g/km 257
- **Emission Standard:** EURO 6

**CHASSIS**
- **Suspension:** Front: Multi-link, Rear: Multi-link
- **Brakes:** Front: Ventilated Discs, Rear: Ventilated Discs
- **Steering Column:** Power: WH
- **Power Steering:** Electronic Power Steering (EPS)
- **Dynamic Rear Steering (DRS):** WH
- **Tires:** Front: 245/40R20, Rear: 275/35R20
- **Wheel:** 20 x 9.5
- **oro: Front: 13.5:1, Rear: 13.5:1
- **Wheelbase:** 2,973 mm
- **Length:** m 5,700
- **Width:** m 1,920
- **Height:** m 1,350
- **Curb Weight:** kg 1,977
- **Gross Vehicle Weight:** kg 2,379
- **Gross Vehicle Weight:** kg 1,977
- **Fuel Tank Capacity:** liter 82
- **Exterior Lamps:** Ultra Compact LED Projectors
- **Lighting:** Automatic
- **Washing:** WH
- **Daytime Running Lights:** With (LED) Signature Arrowhead Design
- **Combing Lamps:** With (LED)
- **Door Handles:** Aluminum / Black Type
- **Roof:** Carbon Fiber
- **Rear Combination Lamps:** WH (LED)
- **Rear Fog Lamp:** WH (LED)
- **Front Grills:** Smoke C-Style
- **Rear Spoiler:** WH (Active Rear Wing)
- **Exhaust Tail Pipe:** Quad Exhaust Tail Pipe
- **Wheels:** Black & Windows: Light Green UV
- **Exterior:** Whips: WH
- **Tail Light:** WH
- **Exterior Mirrors:** Auto-Fold, Heated, Memory & Blind Spot Monitor (BSD)
- **Smart Entry:** WH
- **Antenna:** Glass Type
- **Interior:** Leather & Metalic Cinnammon
- **Steering:** Leather

OWNING A LEXUS IS A JOURNEY IN ITSELF, ONE THAT IS JUDGED NOT BY MILEAGE BUT BY THE COUNTELESS PRICELESS MOMENTS.

BEGIN YOUR JOURNEY THE RIGHT WAY WITH QUALITY SERVICES DESIGNED TO ENHANCE YOUR LEXUS EXPERIENCE.

LEXUS believes that perfection lies in the details. When you purchase a LEXUS, you’ll experience service like no other. LEXUS CAPITAL offers you flexible financing services that enable you to be in full control of your finances, as always. Applying for financing can be handled quickly and conveniently at all LEXUS showrooms.

LEXUS ASSIST is a 24-hour roadside assistance service provided by LEXUS. You’re assured of rebuild assistance via this exclusive program aimed at creating a hassle-free driving experience.

LEXUS INSURANCE is a comprehensive motor insurance package by LEXUS to provide LEXUS owners with tailored insurance coverage for damages to the owner’s vehicle as well as any liabilities incurred by the third party.

Note: LEXUS MALAYSIA, a division of UMW Toyota Motor Sdn Bhd, reserves the right to alter any details of specifications and equipment without notice. Unless specified otherwise, all vehicles are subject to availability. *Vehicle images and specifications provided in this catalog may vary from actual vehicles available for sale. *Vehicle stock and accessory colors might differ slightly from the printed photos in the brochure.
